EW C

Three simple steps to *guaranteed* savings

Three Steps :

1. EWC review your existing telephone call profile
2. Proposal and trial
3. Get connected and start saving!

The EWC model:

Utilising leading technologies to drive down costs.

International calls (landline and mobile).

Works with your existing equipment.

Sole supplier or implemented alongside existing suppliers to increase their efficiency. Can even be used for specific routes.

Focused on the corporate market.

Typical savings of 30%. Some have achieved savings of 70%!

The EWC 'black box' solution allows capped costs between international offices, regardless of the number of calls made.

EWC has over 25 years experience in international telecoms.

Our tailored solutions are delivering maximised savings for businesses and institutions across the World.

Can you afford not to speak to EWC?

**Typical Savings
of 30%**
